BEFORE

## BEFORE: DATED AND BLAH

Bland and cluttered, this space with no real style or personality. The strategy? Punch up the intensity of the walls and color palette. Swap out outdated architectural features. Blend furniture and accessories to create a bedroom as welcoming as a luxury hotel suite.

## AFTER: STYLISH AND SOPHISTICATED

Since the bed is the key focal point, really glam it up! Here, a vibrant quilt and decorative pillows 'pop' with color. Painted furniture—a hot design trend right now—makes the whole room feel fresher and lighter. New closet doors create sleeker, cleaner lines; bamboo shades and crepe curtains lend sophistication. A hardwood floor and lush shag rug replaces faded carpet (the DIY flooring utilized a simple click-and-lock system). The upholstered bench and well-proportioned accessories pull this space together with a look as innovative as it is inviting.
